

2009/10 Extreme Academy

CW3 Extreme Soccer Club is proud to offer the Extreme Academy Winter Training Program. The Extreme Academy is designed to provide a solid soccer foundation for our youngest players. Our staff, specifically licensed at a national level to work with this age group, has designed a curriculum that emphasizes **age-specific** technical skills combined with tactical decision-making to ensure the right information is received at the appropriate age level. We have specifically strengthened our coaching staff this year to make certain the players in our community have the opportunity to receive this essential developmental training at these ages. Although the purpose of this training is to increase the soccer skills of these players, the training environment will be heavily disguised as just having fun.

Age Eligibility:

While the Academy invites interested players from the age of U6 through U10, we will group players of similar abilities regardless of age. Therefore, boys and girls may be intermixed and younger players may work with slightly older players. These groups will not be "set in stone," and may be adjusted to accomplish the best training effect without being overly competitive.
